

NATIVE INSTRUMENTS – KONTROL X1

Installation guide :

- 1.Go on the MixVibes Forum and download the ZIP file of the Native Instruments Kontrol X1 here: <http://forum.mixvibes.com/downloads.php?cat=61>
- 2.Unzip this file. This folder should contain the mapping *Native Instruments Kontrol X1.mappings*, its mapping documentation *Native Instruments Kontrol X1.pdf* and the configuration file *Native Instruments Kontrol X1 - MixVibes CrossDJ Configuration.ncc*.
- 3.Launch the Native Instruments Control Editor software.
- 4.Go To *File > Open Configuration* and select the *Native Instruments Kontrol X1 - MixVibes CrossDJ Configuration.ncc*.
- 5.Launch MixVibes CrossDJ.
- 6.Go to *File > Preferences > MIDI* and import or select the Native Instruments Kontrol X1 mapping.
- 7.Push the SHIFT+HOTCUE buttons of the controller to enable the MIDI.
